Petersburg, PA 16669

**Perma-Chink Systems along with Hess Log Home Supplies** is pleased to announce free seminars for contractors & homeowners interested in applying products to their homes that set the industry standards! We manufacture a family of environmentally conscious sealants, stains and preservatives, for log and wood homes that set the industry standard. The main purpose of this Workshop is to educate and demonstrate.

Perma-Chink Systems has designed informative programs that will train the do-it-yourself homeowners and experienced applicators in all aspects of product application and log home maintenance, to assure a successful project and eliminate the costly occurrence of returning to fix problems that could have been prevented.

The cost for this valuable workshop is your time, which every year has proven that the hands-on experience gained is well worth the day's investment.

**Seminar highlights will feature guest speakers, Sean Gahan, Technical Manager & Tony Huddleston, VP Sales & Operations and will include:**

- Introduction of new products
- Blaster-Buddy demonstration
- Proper application of log home preservatives, stains, chinking and sealants
- How to clean, power wash and strip walls and decks
- Annual inspection & maintenance tips for your log home
- In-depth information on all Perma-Chink Systems, Inc. products
- Choosing stains and finishes for your home AND MORE!!!

Please feel free to bring your log samples for blasting, staining, technical advice and/or other product demonstrations to help you decide the best way to proceed with your project.

Thank you for choosing **Perma-Chink Systems, Inc. *The Log Home Care & Maintenance Authority!***
